NC 54/I-40 Corridor Study Introduction and Vision	1-1
Overview	1-1
Study Objectives.....	1-2
Study Partners.....	1-2
Study Area.....	1-3
Study Process.....	1-3
Vision for the Corridor.....	1-5
Land Use Strategy	1-5
Transportation Strategy	1-8
Report Contents	1-16
Land Use in the NC 54 Corridor	2-1
Overview	2-1
NC 54 Corridor Land Use Context	2-2
Growth Projections for Corridor Development	2-6
Study Area Growth	2-8
Land Use Blueprint	2-16
Land Use and Transportation Scenarios	2-18
Implementation Plan.....	2-25
Park-and-Ride Facility Recommendations	3-1
Overview	3-1
Travel Patterns and Market Dynamics.....	3-1
Park-and-Ride Travel Demand Markets	3-2
Analysis of Data	3-8
Recommendations	3-13
Funding and Implementation Strategies	3-19
Conclusion	3-23
Additional Considerations.....	3-23
Transit Recommendations.....	4-1
Overview	4-1
Current Transit Services.....	4-2
Short Term Improvements	4-5
Mid and Long Term Improvements	4-9
Transit Implementation.....	4-14
Pedestrian and Bicycle Recommendations.....	5-1
Overview	5-1
Existing Pedestrian and Bicycle Facilities	5-2
Planned Pedestrian and Bicycle Facilities	5-6
Recommendations	5-11
Implementation.....	5-30

Roadway Recommendations 6-1

- Overview 6-1
- Existing Conditions..... 6-2
- Future Conditions 6-3
- Tested Scenarios and Results..... 6-5
- Short Term Improvements 6-6
- Roadway Recommendations 6-9
- Light Rail Alignment Alternatives 6-34
- Roadway Recommendations by Implementation Phase..... 6-39
- Implementation and Funding 6-41
- Conclusions 6-43

Summary and Conclusions 7-1

- Performance Measures and Monitoring 7-2

List of Figures

Figure 1-1: Study Area..... 1-4

Figure 1-2: Recommended Corridor Land Use Concept 1-7

Figure 2-1: Future Land Use on Developed Land..... 2-4

Figure 2-2: Future Land Use on Vacant Land 2-5

Figure 2-3: Vacant Land and Areas of Potential Change 2-7

Figure 2-4: Growth Projections for Portions of Durham and Orange Counties within the Study Area by Scenario* 2-8

Figure 2-5: Locations of Potential Development Sites 2-9

Figure 2-6: Potential Station Areas..... 2-10

Figure 2-7: Example of Potential TOD Progression at the Leigh Village property 2-13

Figure 2-8: Recommended Corridor Land Use Concept 2-16

Figure 2-9: Trend Scenario A 2-19

Figure 2-10: Trend Scenario B 2-20

Figure 2-11: Scenario 1 2-21

Figure 2-12: Scenario 2 2-22

Figure 3-1: Concentration of Residents within Durham County Metropolitan Statistical Area..... 3-9

Figure 3-2: Concentration of Employment within Durham County Metropolitan Statistical Area 3-10

Figure 3-3: Travel Time Contours to Employment Destinations with Local Bus Service..... 3-11

Figure 3-4: Travel Time Contours to Employment Destinations with Express Bus Service..... 3-12

Figure 3-5: Recommended Park-and-Ride Facility Locations..... 3-16

Figure 3-6: Footprint of a 1,000 Space Structured Parking Facility at Patterson Place..... 3-21

Figure 3-7: Examples of Urban Structured Parking Facilities 3-22

Figure 4-1: Existing Transit Service 4-3

Figure 4-2: Chapel Hill Transit Daily Boardings by Bus Stop within the NC 54 Corridor 4-4

Figure 4-3: Short Term Recommendations..... 4-8

Figure 4-4: Long Term Recommendations..... 4-12

Figure 4-5: Transit Improvements in the Bus and Rail Investment Plan..... 4-16

Figure 5-1: Existing Pedestrian Facilities Map 5-3

Figure 5-2: Existing Bicycle Facilities Map..... 5-5

Figure 5-3: Existing and Planned Pedestrian Facilities Map 5-9

Figure 5-4: Existing and Planned Bicycle Facilities Map..... 5-10

Figure 5-5: Pedestrian Emphasis Areas..... 5-12

Figure 5-6: Bicycle and Pedestrian Network Recommendations..... 5-13

Figure 5-7: Corridor Crossing Facilities..... 5-14

Figure 5-8: Pedestrian & Bicyclist Crossing at Superstreet Locations 5-15

Figure 5-9: Example of a Sharrow 5-16

Figure 5-10: Regional Trails near the NC 54 Corridor 5-18

Figure 5-11: Grade Separation Designs with Pedestrian Facilities..... 5-19

Figure 5-12: Before and After Rendering of US 15-501 Ramp Improvements for Pedestrians and Bicyclists 5-22

Figure 5-13: Before and After Street View Rendering of Improvements at US 15-501 Interchange. 5-23

Figure 5-14: Pedestrian Facilities at the I-40 Interchange Area (shown in grey)..... 5-24

Figure 5-15: I-440 Pedestrian Bridge 5-25

Figure 5-16: Before and After Rendering of Light Rail Crossing with Accommodations for Pedestrians 5-26

Figure 6-1: North Carolina Highways Carrying 70,000 Vehicles per Day..... 6-4

Figure 6-2: Adopted Collector Street Network..... 6-7

Figure 6-3: Farrington Road Slip Ramp 6-8

Figure 6-4: Effects of Traffic Signals on Highway Capacity 6-9

Figure 6-5: Functional Design Solution for the I-40 Interchange Area. 6-11

Figure 6-6: I-40 Interchange Area Design Alternatives..... 6-12

Figure 6-7: I-40 Interchange Area Design Solution Construction Phase 1 6-14

Figure 6-8: I-40 Interchange Area Design Solution Construction Phase 2..... 6-15

Figure 6-9: I-40 Interchange Area Design Solution Construction Phase 3 6-16

Figure 6-10: Potential Access Reconfiguration for Celeste Circle..... 6-17

Figure 6-11: Delay Comparison for Left Turn Movements at Farrington Road 6-19

Figure 6-12: Recommended Eastbound I-40 On-Ramp Configuration..... 6-20

Figure 6-13: Partial Cloverleaf Interchange..... 6-22

Figure 6-14: Example of Blue Striping for Bicycle Weave Segment 6-24

Figure 6-15: Example of a Bicycle Box..... 6-24

Figure 6-16: Recommended Barbee Chapel Grade Separation Design. 6-26

Figure 6-17: Alternative Barbee Chapel Grade Separation Design. 6-26

Figure 6-18: Efficiency of Two-Phase Signals 6-27

Figure 6-19: The Superstreet Concept 6-28

Figure 6-20: Superstreet Intersection Conflict Points..... 6-29

Figure 6-21: Photos of Superstreets in North Carolina 6-30

Figure 6-22: Superstreet Configuration at Meadowmont Lane and Friday Center Drive 6-32

Figure 6-23: Future Light Rail Alignment Alternatives 6-34

Figure 6-24: Light Rail Alignment C1 Meadowmont Lane 6-35

Figure 6-25: Light Rail Alignment C2 George King Road 6-36

Figure 6-26: Combined NC 54 Roadway Recommendations Sheet 1 - US 15-501 to Rogerson Drive 6-44

Figure 6-27: Combined NC 54 Roadway Recommendations Sheet 2 - Rogerson Drive to Meadowmont Lane/Friday Center Drive 6-45

Figure 6-28: Combined NC 54 Roadway Recommendations Sheet 3 - Meadowmont Lane/Friday Center Drive to Little John Road 6-46

Figure 6-29: Combined NC 54 Roadway Recommendations Sheet 4 - Little John Road to Crossland Drive 6-47

Figure 6-30: Combined NC 54 Roadway Recommendations Sheet 5 - Huntingridge Road to Leigh Farm Road/ Quadrangle Drive 6-48

List of Tables

Table 1-1: List of Transportation Recommendations 1-9

Table 2-1: Conceptual Land Uses..... 2-18

Table 2-2: Projected Population and Employment Growth for 2035..... 2-18

Table 2-3: Density, Diversity & Design Criteria 2-23

Table 2-4: Walking Trip Adjustments..... 2-24

Table 3-1: Prioritized Park-and-Ride Recommendations 3-17

Table 4-1: Transit Recommendations..... 4-13

Table 5-1: Bicycle and Pedestrian Transportation Recommendations 5-27

Table 6-1: Operating Conditions at Signalized Intersections through the I-40 Interchange Area in Peak Hours 6-18

Table 6-2: NC 54 Travel Time through the I-40 Interchange Area in Peak Hours..... 6-18

Table 6-3: Timeframe and Phasing of I-40/Farrington Road Area Improvements 6-19

Table 6-4: Partial Cloverleaf Navigation by Movement 6-23

Table 6-5: Overall Intersection Delay (seconds) & Level of Service 6-33

Table 6-6: Total Directional Delay (in minutes) 6-33

Table 6-7: Meadowmont/Woodmont Alignment Options Opportunities and Constraints 6-35
